Projects

- 04/2025 – 05/2025 **CarPoint – Responsive Car Dealership Website**
Vehicle Showcase and Management Platform using PHP & MySQL
Designed and developed a fully responsive car dealership website using HTML, CSS, JavaScript, and PHP. Integrated MySQL for storing vehicle data. Features include vehicle listings, filter search, user dashboard, and wishlist functionality.
- 01/2025 – 02/2025 **ShopLux – Your Premium Shopping Destination**
E-commerce Website using PHP & MySQL
Developed a modern e-commerce website using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap. Key features include product catalog, cart, wishlist, secure login, admin panel, and order management. Implemented responsive design, review system, coupon codes, and used Figma for UI/UX planning. Focused on secure authentication, SQL protection, and smooth user experience.

Courses

Full Stack Web Development

Vimal Tormal Poddar BCA College & YouTube

Learned full-stack development including HTML, CSS, JavaScript, PHP, MySQL. Built projects like login systems, product pages, and CRUD apps with responsive design principles.

Graphic Design Fundamentals

Self-Learning (via YouTube, Canva, Adobe Tutorials)

Learned design principles using Adobe Photoshop, Illustrator, and Canva. Designed logos, posters, UI mockups, and branding materials.

Video Editing for Social Media

Self-Learning (via YouTube, CapCut, Adobe After Effects)

Gained hands-on experience in editing Instagram Reels and YouTube Shorts using CapCut and After Effects. Focused on transitions, effects, and sound sync.

Dropshipping Business Basics

YouTube & Self-Learning

Learned the basics of dropshipping using Shopify, WordPress, and Google Sites. Covered product listing, payment integration (Razorpay), and order management through self-learning and YouTube tutorials.

Tools & Platforms

Software and Development Environments I Use

- Design & Editing: Figma, Photoshop, Illustrator, Canva, CapCut, After Effects
- Development: Git, GitHub, XAMPP, VS Code, Bootstrap
- Web Platforms: WordPress, Shopify, Razorpay, Google Sites
- Operating Systems: Windows, Ubuntu, Android

Declaration

I hereby declare that all the information given above is true to the best of my knowledge and belief.
